

Teneo Linguistics Company (TLC) delivers language and cultural solutions that reduce risk across healthcare, life sciences, education, manufacturing, and other high-stakes industries. For over 18 years, TLC has ensured critical operations are never compromised by language barriers. Our vetted linguists provide precise, secure, and timely translation, interpreting, transcription, and accessibility services in more than 200 languages, supporting compliance, safety, and informed decision making.

Core Competencies

- **Managed Translation Services:** Translation 360®, delivering cost savings, secure processing, and rapid turnaround to support high-stakes healthcare, life sciences, education, and manufacturing operations.
- **Translation & Localization:** Technical, regulatory, medical, and operational content rendered accurately into 200+ languages with consistent terminology.
- **Interpreting:** On-site, over-the-phone (OPI), and video-remote (VRI) interpreting, including ASL, supporting clinical, training, and operational engagements.
- **Transcription:** Certified verbatim transcription for hearings, clinical reports, research interviews, and operational records, enabling precise analysis and evidentiary use.
- **Accessibility:** Section 508 compliance and digital accessibility audits to ensure all critical content is fully accessible.
- **Language Testing:** Proficiency assessments to certify staff readiness and support hiring and compliance initiatives in high-stakes environments.
